

Aqua-Aid®

Premium Soil Wetting Agent

GENERAL INFORMATION

Aqua-Aid is a penetrating soil wetting agent formulated to allow for water to more easily penetrate the most compacted soils and more effectively move water through saturated soils that have not reached super saturation. **Aqua-Aid** is safe to turf and can be applied at any time of the year to avoid the detrimental impact of water repellency stress and localized dry spots on turfgrass. **Aqua-Aid** is easy to apply through standard spray application equipment to all turfgrass areas.

WARRANTY AND LIMITATION OF LIABILITY

AQUA-AID, INC. warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

AQUA-AID GUARANTEE

Aquifer comes with a 100% money back guarantee. If you are not satisfied with Aquifer for any reason after trying the product at recommended rates, AQUA-AID, INC. will refund your money in full.

STORAGE AND DISPOSAL

Keep container tightly closed. Store in original container only. Triple rinse container and empty rinse water into spray or stock tank. Dispose of empty containers in accordance with applicable laws.

HAZARD STATEMENT(S)

The product is not classified as hazardous. No known significant effects or critical hazards.

PRECAUTIONARY STATEMENT(S)

Keep out of reach of children. Read label before use. In case of eye contact, flush eyes with water. If swallowed, give water or milk. If eye or skin irritation occurs or you feel unwell, get medical advice/attention.

PFC 3B - Inorganic Soil Improver

Dry matter content 7,5% by mass

Ingredients:

19% Ethylene oxide-propylene oxide copolymers (CAS: 9003-11-6)¹
Where ¹ CMC 1 virgin material substances and mixtures

DIRECTIONS FOR USE

Golf, Lawns, and Sports Turf

Apply two applications 15 days apart at 6 to 13 L/ha in 800 L of water (2 to 4 ounces per 1 000 ft² in 2 gallons). Reapply at 6 to 13 L/ha in 800 L of water (2 to 4 ounces per 1 000 ft² in 2 gallons) at 30 day intervals or as needed.

Irrigate after each application to remove the surfactant from the plant surfaces.

Inject two applications 15 days apart at 3 to 10 L/ha (1 to 4 quarts per acre). Reapply at 3 to 5 L/ha (1 to 2 quarts per acre) at 30 day intervals or as needed.

Horticulture

Apply 6 to 13 L in 800 L of water per hectare (2 to 4 ounces in 2 gallons per 1 000 ft²) of container surface and/or landscape plantings at 30 day intervals or as needed.

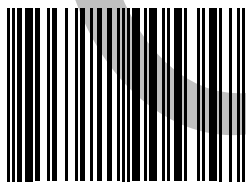

Irrigate after each application to remove the surfactant from the plant surfaces.

Inject 3 to 5 L/ha (1 to 2 quarts per acre) of container surface and/or landscape plantings at 30 day intervals or as needed.

DO NOT combine **Aqua-Aid** in the spray tank with pesticides or fertilizers unless prior use has shown the combination physically compatible, effective and non-injurious under local conditions.
