

Verde-Cal F

ENHANCED LIQUID CALCIUM

- Strengthens cell walls for increased resistance to disease and environmental stress
- Improves chlorophyll formation and supports key metabolic processes
- Easy liquid application for foliar use on golf and sports turf

AQUA·AID

Verde-Cal F

Enhanced Liquid Calcium

Verde-Cal F is an enhanced liquid calcium product formulated for foliar application on golf and sports turf. It strengthens cell walls, supports chlorophyll formation, and aids nutrient uptake through the addition of humic acids. Essential nutrients are also present, supporting a broad range of plant metabolic processes.

PRODUCT DETAILS

- **Strengthened Cell Walls:** Calcium builds structural integrity in plant cells, increasing resistance to disease, pests, and environmental stress.
- **Improved Chlorophyll Formation:** Supports the development of chlorophyll for healthier, greener turf with stronger photosynthetic capacity.
- **Enhanced Drought Resistance:** Promotes root development to improve plant resilience during periods of stress.
- **Efficient Nutrient Uptake:** Added humic acids increase the availability and absorption of applied nutrients, maximising the return on your fertiliser programme.
- **Broad Metabolic Support:** Supplies essential nutrients that underpin a large number of plant metabolic processes, keeping turf performing at its best.
- **Synergistic Fertiliser Performance:** Improves the efficiency of other applied fertilisers, delivering greater value from your existing inputs.

COMPOSITION

18%	Calcium Oxide (CaO)
5%	Humic Acids
1%	Trace elements

DIRECTIONS FOR USE

Verde-Cal F is suitable for use on all grass and turf areas after seeding.

For sports turf application, use 10 to 20 L/ha in 400 L of water per hectare per application. Apply at 14 to 30 day intervals.

On soils with low organic matter and/or low natural mineral content, more frequent application and/or higher rates are recommended. Please ask your distributor for the correct application rate.

Available in packaging of 20 L and 210 L.

Please contact your distributor for more information.
