AQUA BOOST

PLANT DEFENCE ENHANCER

- Boosts the plant's immune system
- Stimulates plant own hormone production
- Feeds microorganisms and stimulates nutrient exchange
- Works great with Turf Power

Liquid

AQUA·AID

Aqua Boost
Plant Defence Enhancer

AQUA-BOOST stimulates microbial activity and the development of beneficial microorganisms in the soil. It supports a vital and active soil ecosystem, and promotes nutrient- dynamics in the rootzone and significantly improves microbial populations. The nutrient exchange in the root zone increases, creating more root mass and a denser sward.

AQUA-BOOST works great with **Turf Power** as it promotes the growth of microbial populations in the growing media.

PRODUCT DETAILS

- **Microbial Activity & Nutrient Exchange**: feeds microorganisms and stimulates nutrient exchange in the root zone, creating more root mass and a denser sward.
- **Organic Decomposition**: improves decomposition of dynamic organic mass, supporting a healthy and balanced soil ecosystem.
- **Low EC Level**: non-phytotoxic with a low EC level - safe for all plant types and soil conditions.
- **Works with Turf Power**: promotes the growth of microbial populations in the growing media when combined with Turf Power.

COMPOSITION

Classification: Organic Soil Improver PFC3(A) — EU Regulation 2019/1009
Components: Carbon-60, CMC 1: Virgin material substances and mixtures

Product-Specific Labelling Values:
Dry matter (DM): 61.75% w/w | Organic carbon (Corg): 25.4% w/w
mS/m^2: 8 | pH: 5.0 | Corg/N quotient: <364

DIRECTIONS FOR USE

- Apply 12,5-17,5 L/ha in 500 L water at a 4 week interval during the growing season.
- After renovation/reseeding, apply twice at a 2 week interval. AQUA-BOOST needs to be watered in with 3 mm irrigation within 8 hours after application.

Available in packaging of 10 L, 210 L and 1000 L.
