

# OCEAN

## NATURAL OCEANIC ALGAE BOOST

- Highly concentrated foliar algae product
- Activates formation of roots and shoots
- Great results with limited application

AQUA·AID

# OCEAN
## Natural Oceanic Algae Boost

**OCEAN** is a liquid product based on natural oceanic plant algae (Ascophyllum Nodosum), enhanced with plant extracts and natural co-enzymes. OCEAN stimulates extra formation of roots and shoots. **OCEAN** contains plant-specific proteins and fatty acids that contribute to a more vital crop, reducing the need for chemical applications. MRL free according to our protocol, diluted 1:100.

## PRODUCT DETAILS

- **Algae source**: Contains Ascophyllum Nodosum algae, a highly concentrated biological plant booster
- **Root and shoot activation**: Stimulates extra formation of roots and shoots for more active plant growth
- **Plant defence**: Improves overall plant defence system
- **Crop vitality**: Plant-specific proteins and fatty acids contribute to a more vital crop
- **Chemical reduction**: Reduces the need for chemical crop protection applications
- **Sustainability**: 100% Organic and environmentally friendly
- **Rootzone**: Supports nutrient dynamics in the rootzone

## COMPOSITION

**Classification**: Organic Soil Improver PFC3(A) - EU Regulation 2019/1009
Composition: Ascophyllum nodosum - 60 (CMC1) - virgin material substances and mixtures

| | |
|---|---|
| Organic carbon (Corg): | 23.2% w/w |
| Total potassium oxide (K2O): | 0.8% |

## DIRECTIONS FOR USE

- Sports Turf: apply 2 L/ha in 300-600 L /ha every 2-4 weeks.
- When used as Co-Enzymes: 250-750 mL/ha weekly.
- Soil (drip iggigation): application through drip irrigation: 1 L **OCEAN** per ha every 2 weeks.
- As Foliar/Spray: apply 2 L of **OCEAN** per ha in 300-600 L of water every 2-4 weeks.

Available in packages of 1 L and 10 L.
